

Suzanne Osborne

As a mom and elementary school teacher for over 20 years, I am driven by a deep love for nature and the elements.

I am committed to protecting our Mother Earth and nurturing the development and well-being of future generations. I carefully cultivate my vegetable garden, which offers me simple, lively and nourishing food.

I also passionately share the pleasure of skiing with my family. I like to transmit to my students, values and teachings inspired by the First Peoples, while respecting and listening.

Thank you, Migwetch
